WEEK ST MARY BONAVENTURES WOMEN'S INSTITUTE

Variety is the spice of life! I should add herbs to that as this was the message given to us at our last meeting. Our speaker was Jane Hanscomb who has been fascinated by herbs and spices most of her life using them for cooking and medicinal purposes. We learnt that spices mainly come from the bark and roots of a plant whereas herbs come from the leaves and stems. Also, herbs have a tendency to come from the temperate lands whereas spices come from the tropics.

We know that herbs were used in the Iron Age and were also mentioned in the Bible. The Egyptians used them in mummification and the Romans used seeds, sourced from their trading routes, and introduced us to herbs such as ground elder and nettles. The Vikings used cardamon but not much is known from the Dark Ages. The Crusaders certainly brought back peppercorns. They were extremely valuable, hence the phrase "peppercorn rent" as they could be used instead of money for rent. Cooks will know that ground pepper is added for heat whereas peppercorns add piquancy.

After Christianity reached these shores the monasteries had an incredible influence on daily life including using herbs for healing. After the dissolution in the 16th century a lot of this knowledge was handed down by Old Wives but they risked being accused of witchcraft. Unfortunately, so much knowledge was lost until modern day scientists realised that many of our herbs could provide the basis for the medicines we use today. When Christopher Columbus first discovered the New World he brought back All Spice from the West Indies. The whole pepper family was then brought back including chilies, black mustard and paprika. As new lands were gradually discovered, the various European countries even went to war trying to control the spice trade from these countries because of the riches to be made.

Having been given a brief history, members were then given the chance to smell and handle a number of herbs and spices that Jane had brought with her including some from her own garden. A useful tip was that powdered spice doesn't keep as long as seeds.

The photograph shows Jane Hanscomb with her selection of herbs and spices at our meeting.

Anyone interested in finding out more about our WI can contact Roberta Jones, Secretary, on 07788-548875.

The next meeting will take place on Thursday 10th July with a visit to Trigon Farm for a guided tour and afternoon tea. This follows an inspiring talk by the owner earlier this year.

Ruminations from the Rectory

What's my purpose Cry has three letters but so does joy. Hate has four letters but so does love. Enemies has seven letters but so does friends. Failure has seven letters but so does success. Negativity has ten letters but so does positivity.

You always have a choice. So choose the better side.

"What's my purpose in life?" I asked God "What if I told you that you fulfilled it when you took an extra hour to talk to your children about their life?" God said. "Or when you paid for that couple in the restaurant? Or when you saved that dog in traffic? Or when you tied your father's shoes for him?"

"Your problem is that you equate your purpose with goal-based achievement. I'm not interested in your achievements, just your heart. When you chose to act out of kindness, compassion and love, you are already aligned with your true purpose." "No need to look any further!"

Do everything in love. 1 Corinthians 16:14

Murder Mystery Evening

A huge thank you to everyone who supported the Murder Mystery evening on 21st June. Everyone had a great time, the murder was solved and the event raised a considerable sum of money to support the life and renovation of our church.

I am very grateful to my willing band of helpers, without whom the event couldn't have happened. Caterers Lesley, Linda, Sue, Judith and myself, waitresses Abi and Pam, barman Stephen and last but not least the actors: Wendy Couch, Bob Booker, Ellen Morrison, Kay Parry, Rev. David Saunders and Dianne Saunders.

Thank you – Micheline Smith

1 tsp baking powder
125g/4¹/₂oz butter, cut into cubes

- Cllr Slade reported that the air ambulance landed on the Monday. Cllr Willoughby asked how people would know where the gate key was. Cllr Slade explained the safety report previously picked up that the gate should be locked, but the council felt that one should be unlocked for the air ambulance etc. It was suggested to write the location of the key on the emergency sheet in the playing fields. Cllr Couch suggested a key lock safe. This would be placed on the July agenda.

Councillors discussed correspondence from a resident who wanted to organise a 'Mini Moon Walk' to raise money for Breast Cancer charities. Councillors had no objections. The clerk will respond and ask them what date they have in mind.

4 Media and online communications

- Cllr Fay referred to a new government website that says it is good to be open and get people involved. She said people don't do enough together. There could be opportunities for events such as a cinema night or sports day. Cllr Willoughby mooted the idea of an online calendar. Cllr Fay said there is the magazine and there could also be Facebook links to the website. Cllr Slade extended thanks to David Martin for maintaining the community website. The new parish council website is live and being updated by the clerk. It can include news and upcoming events. Cllr Couch said a Facebook page could contain news and photos and links to the official website. Cllr Willoughby said there are 900 members of the Week St Mary Facebook page, and information sharing is recommended. Lots of information can be shared to communicate things to people on there. Cllr Slade said some posts had previously got out of hand, with people being named and it getting nasty. On Facebook, it should be the message of the council as a whole and not an individual personal view. Cllr Couch said people wanted change and feel that they are not informed. Cllrs Willoughby Fay and Couch would be happy to set up a parish council Facebook page and will bring a mock-up to the July meeting.
- 5 Communications sub-committee As above.
- 6 Tech support drop-in

Cllr Fay said this was about opening up things for the village. She suggested a regular tech drop-in, help with online forms, printing. She said there is a variation of skills and ages in the village and this could be extended to bread making and things to bring people together. Cllr Slade queried where it would be held, who would run it and who is going to pay for it. She suggested that there could be grants available. Cllr Fay will bring more details to the July meeting.

7 Fundraising for parish council

Cllr Fay suggested having an ideas/suggestions box. Cllr Willoughby said there could be an online calendar set up so people could see events booked on the playing field. Cllr Slade said any event would need insurance and a risk assessment. Cllr Willoughby said it would be a good idea to have a guide on how to book the playing field. This would be placed on the July agenda.

8 Neighbourhood Watch

Cllr Couch said a couple of months ago there was a spate of anti-social behaviour. He is looking at the potential to form a Neighbourhood Watch. There used to be one in the village, but it has not been active for many years. He said a couple of people are concerned about Treetops, and the idea of a Neighbourhood Watch makes them feel better. The parish council, he said, could have some input and it would promote the parish council in a good light. He is used to liaising with the police and is happy to reach out to them. This will be placed on the July agenda.

9 Roles and responsibilities - Equality, diversity, inclusion

Cllr Couch questioned where the council was with EDI (Equality, Diversity and Inclusion). He said there are 900 disabilities. He noted the meeting is held in the chapel school room – is there accessibility notes? Is it on the agenda? Or why not? Going forward, he believes this should be at the forefront. He will come back next month with some ideas.

10 Health and safety representative

Cllr Couch asked if there was a health and safety rep, and if proper risk assessment forms are completed. Cllr Slade said there is an annual safety inspection of the playing fields. A check is carried out by Cllr Shipton and a form filled in. Cllr Couch will have a look at the council risk assessments / safety form and come back with any amendments. Cllr Slade reiterated that the football club is responsible for its risk assessments and insurance.

11 Grass cutting and maintenance

The advertisement will consist of playing field maintenance; then cutting and strimming of the top playing field and lower area. The advert will be placed in the magazine and on the website. Cllr Slade said she can meet anyone interested at the playing field to give more information. Those applying would need public liability insurance.

The clerk read an update from Devon Air Ambulance and Cornwall Air Ambulance. While Cornwall Air Ambulance is able to land at the playing fields day and night, Devon Air Ambulance has designated landing areas, and the nearest to the village is Holsworthy.

5. Ashbury Grove

The chair suspended Standing Orders to allow the members of the public in attendance to speak. Jeremy Ward said there were six residents from Ashbury Grove in attendance. The area in question is an oblong area adjacent to the parish hall and a round area in front of the thatch cottage. Over the last six months, residents have looked after it. This summer the fence will be repaired. The residents noted the email from Cornwall Council, and Mr Ward said on behalf of the residents, if the parish council goes with something along these lines, the residents do not have the expectation that the parish council can do everything. There are options to fundraise. He said the Cornwall Council alternative fills them with horror. Cllr Slade reinstated Standing Orders. Cllr Chopak said although it is an extra responsibility for the parish council, the fact that Cornwall Council is offering some funds is unique, and the funds could be ringfenced for this area. It was agreed to ask Cornwall Council is there is a timescale clause about selling the land, and to proceed with their offer. Cllr Chopak will also go back to see if there is any leeway with the legal fees as the parish council has not budgeted for this.

6. Public Rights of Way modification application

Councillors received information regarding the application for the Modification of Definitive Map and *Statement* of Rights of Way – Great Hills to Greenamoor (WCA 792). Following discussion, councillors acknowledged this to be a well-trodden footpath for residents of Week St Mary, and see no reason why it should be changed.

7. Public Rights of Way modification application

Councillors received information regarding an application for an order to modify the Definitive Map and Statement of Public Rights of Way – road to Odd Mill (WCA 807). As above, councillors acknowledged it to be a well-trodden footpath for residents, and they see no reason for this to be changed.

It was proposed firstly to keep the fourth amendment in the lease.

It was proposed to write to the football club stating they are happy to accept an 18month payment plan. Once agreed and signed, it will be handed to the solicitor to complete.

11. 20mph roll-out

An online meeting will be held, organised by Cornwall Council, about the 20mph rollout. Cllr Chopak said this would need parish engagement, before going out to public consultation.

Lambley Corner – Margaret; the Green pump trough – Wendy Couch; three planters on the Green – Adventure Church; planter by the old garage – Dan Cox and family; Broad Close planter – Brenda Jennings, John and Jenny Parkin (strimming). Windows Update Neglect is Endangering Your Digital Life

Computers are not just tools; they're gateways to our personal and professional lives. We rely on them constantly, yet, a trend persists and a significant number of users neglect to install updates, unknowingly leaving their systems vulnerable to a host of potential threats.

The reasons behind update avoidance are numerous, updates can take time, or the fear of system crashes and if it "Isn't Broke, Don't Fix It" Mentality: Some users believe that if their computer is currently functioning adequately, there's no need to risk upsetting the apple cart with an update.

Many users simply don't understand the importance of updates, viewing them as optional rather than essential. They may be unaware of the security vulnerabilities that updates are designed to address and skipping Windows updates is like leaving your house unlocked when no-one is at home,

Outdated systems are prime targets for malware, including viruses, ransomware, and spyware. These malicious programs steal your personal information, encrypt your files, and even hold your computer hostage. If your computer is infected, your personal data, passwords, financial information, and sensitive documents, can easily be compromised and used for identity theft or other nefarious purposes.

While updates can sometimes cause temporary hiccups, they often include performance enhancements and bug fixes that can improve the overall speed and stability of your system. As software and hardware evolve, outdated operating systems can become incompatible, leading to functionality issues and the inability to run correctly.

The good news is that protecting yourself from these risks is relatively simple. You can configure Windows to automatically download and install updates. This ensures that your system is always protected with the latest security patches.

Keep up-to-date on the latest security threats and vulnerabilities.

Understanding the risks can help you appreciate the importance of timely updates. Allow updates to complete without interruption and maybe leave it on for an hour after using it. Restart your computer when prompted and avoid using it until the installation process is finished.

Neglecting Windows updates is a dangerous gamble that can have serious consequences. By understanding the risks and taking steps to keep your system updated, you can protect yourself from cyber threats, maintain optimal performance, and ensure the safety of your data. Don't let the fear of inconvenience outweigh the necessity of security – update today!

On a personal note and by now, my hip replacement should have been completed and with a bit of luck, I should be able to resume my normal business activities soon. Wendy and I would like to thank everyone for their support and good wishes on my recovery.
