**AI can and does make mistakes**

The race to push AI into everyday use is beginning to have repercussions, errors are being made, not only by the AI model, but by the originating programmers. After all a machine can only respond to a program code, at least at the moment. That will change in time! There is evidence of too much reliance is being adopted on systems which have not been fully tested with the attitude of learn as you go, (Fix bugs as they appear) being the development mantra of many software companies. This find and fix attitude has been in place for decades and as all scholars know a simple comma in the wrong place can change the total meaning of a sentence, so too in programming and as most programs are written in American English, mistakes follow with incorrect output.

One may say, "It can't happen in reality", maybe-maybe not! But just imagine if an incorrectly read chart or report with the omission of certain data is used in a diagnosis how many "down line" mistakes can be repeated causing severe damage, losses or even worse!

Recently several thousand pounds were transferred between banks because of an AI/human error. Scans have been misread or not reported on and an attitude of the system can't be wrong can be adopted. Many people will remember in the early years of computerisation. "The computer says this and it must be right" attitude, did not mean it is correct, especially in dispute with a missing or incorrect service and if you haven't experienced it as yet, you soon will.

The worry here is that it will all happen again until managers realise the AI system has weaknesses and that weakness is often supported by weak management!

AI-generated caricatures are everywhere right now. You upload a photo, and seconds later you have a cartoon version of yourself. Harmless fun? Maybe. But before you jump in, it's worth asking: where does that photo go, how is it stored and who has access to it?

Some platforms behind these viral tools collect more data than you realise. Your photo could be stored, reused, or even used to train future AI models.

Instagram fake login traps and subscription scams are fuelling dark-web fraud. They are now more convincing than ever. You receive a message saying your account violated a rule or needs verification. You click, log in and hand your password directly to a scammer.

Streaming subscription deals look tempting, but most are scams, many are tied to stolen accounts being sold by thieves. These scams not only cost you money, they use malware software for other payment fraud and identity theft.

Avoiding unofficial subscription sellers. Use unique passwords for every service. Monitor your payment statements and enable security alerts on your accounts.

This can be a nuisance, but consider this. Five local users have lost over £100,000 to online scams. New data shows that criminals stole over £629.3 million in the first half of 2025!

## Ruminations from the Rectory

### Old Eddie

It happens every Friday evening, almost without fail, when the sun resembles a giant orange and is starting to dip into the blue ocean. Old Ed comes strolling along the beach to his favourite pier. Clutched in his bony hand is a bucket of shrimp. Ed walks out to the end of the pier, where it seems he almost has the world to himself. The glow of the sun is a golden bronze now. Everybody's gone, except for a few joggers on the beach. Standing out on the end of the pier, Ed is alone with his thoughts....and his bucket of shrimp.

Before long, however, he is no longer alone. Up in the sky a thousand white dots come screeching and squawking, winging their way toward that lanky frame standing there on the end of the pier. Before long, dozens of seagulls have enveloped him, their wings fluttering and flapping wildly. Ed stands there tossing shrimp to the hungry birds. As he does, if you listen closely, you can hear him say with a smile, 'Thank you. Thank you.'

In a few short minutes the bucket is empty. But Ed doesn't leave. He stands there lost in thought, as though transported to another time and place. Invariably, one of the gulls lands on his sea-bleached, weather-beaten hat - an old military hat he's been wearing for years. When he finally turns around and begins to walk back toward the beach, a few of the birds hop along the pier with him until he gets to the stairs, and then they, too, fly away. And old Ed quietly makes his way down to the end of the beach and on home. If you were sitting there on the pier with your fishing line in the water, Ed might seem like 'a funny old duck,' as my dad used to say or 'a guy that's a sandwich shy of a picnic' as my kids might say. To onlookers, he's just another old codger, lost in his own weird world, feeding the seagulls with a bucket full of shrimp. To the onlooker, rituals can look either very strange or very empty. They can seem altogether unimportant....maybe even a lot of nonsense. Old folks often do strange things, at least in the eyes of young folk. Most of them would probably write Old Ed off, down there in Florida.

That's too bad. They'd do well to know him better. His full name: Eddie Rickenbacker. He was a famous hero back in World War II. On one of his flying missions across the Pacific, he and his seven-member crew went down. Miraculously, all of the men survived, crawled out of their plane, and climbed into a life raft. Captain Rickenbacker and his crew floated for days on the rough waters of the Pacific. They fought the sun. They fought sharks. Most of all, they fought hunger. By the eighth day their rations ran out. No food. No water. They were hundreds of miles from land and no one knew where they were. They needed a miracle.

That afternoon they had a simple devotional service and prayed for a miracle. They tried to nap. Eddie leaned back and pulled his military cap over his nose. Time dragged. All he could hear was the slap of the waves against the raft. Suddenly, Eddie felt something land on the top of his cap. It was a seagull! Old Ed would later describe how he sat perfectly still, planning his next move. With a flash of his hand and a squawk from the gull, he managed to grab it and wring its neck. He tore the feathers off, and he and his

starving crew made a meal - a very slight meal for eight men - of it. Then they used the intestines for bait. With it, they caught fish, which gave them food and more bait.....and the cycle continued. With that simple survival technique, they were able to endure the rigors of the sea until they were found and rescued after 24 days at sea.

Eddie Rickenbacker lived many years beyond that ordeal, but he never forgot the sacrifice of that first lifesaving seagull. And he never stopped saying, 'Thank you.' That's why almost every Friday night he would walk to the end of the pier with a bucket full of shrimp and a heart full of gratitude. Who is it you say thank you to? How do you say thank you?

The Bible encourages us to, Give thanks in all circumstances.... 1 Thessalonians 5:18 When we say thank you, we should do it like Eddie, in all circumstances and with a heart full of gratitude. (story from Max Lucado, In The Eye of the Storm, pp.221, 225- 226)

## Your Parish Church NEEDS YOU

For nearly four centuries, our Grade I listed church tower has stood as a proud landmark, rising 100 feet above the landscape and watching over our community since 1643. Its history is woven into the story of this place — a symbol of heritage, faith, and continuity.

Today, however, this remarkable structure has been placed on the Heritage at Risk Register. Time and weather have taken their toll, and without urgent action the tower's future is uncertain.

A full renovation is now required to preserve and protect it for future generations. The work is extensive, with an estimated cost of £400,000.

We are asking for your help. Every donation, large or small, will bring us closer to restoring this historic tower and ensuring it continues to stand tall for centuries to come.

If this landmark means something to you, please consider supporting the restoration fund. Together, we can safeguard this piece of history and keep our tower standing proudly over the community once again.

## COMMUNITY MONEY ADVICE LAUNCESTON

During 2025 the Cornwall PEOPLE IN MIND outreach project has enabled Community Money Advice Launceston to visit and meet local residents of some of the most rural villages and hamlets within North East Cornwall, including Week St Mary. This has enabled our team to become engaged with some of the least advantaged locally. The elderly especially, including those who may be experiencing difficulties within their finances, particularly with their utilities, local taxes and benefit structure.

The FREE services which CMAL offer in these areas has been particularly welcome among those who find it so difficult to keep abreast with the newer methods in technology. With nationally 1 in 7 people being unable to communicate effectively with the internet/email/online banking system, it is little wonder why our team is fully stretched to help. We have a policy of helping every genuine request for help. One of the main lessons we have learnt from our visits is that many local people were unaware of us, or the areas in which we can help, and especially the direct contact we have with some agencies, like SouthWest Water or Cornwall Council about council tax problem

The major areas of immediate concern to many of our clients currently are:

PENSION CREDIT    WINTER FUEL PAYMENT    BLUE BADGES    PIP renewal

If you are worried or feel the forms to fill are too complicated. DO NOT WAIT.

If you feel you would like to contact outside our visit dates, then make an initial contact by phone on 01566 777407 or 07762 092 830 and leave a message on our answerphone if our office is closed. For those who prefer email then our contact is [office@launcestonmoney.co.uk](mailto:office@launcestonmoney.co.uk) . In the last year more than 800 residents in North Cornwall have had our help. Many in Week St Mary and the surrounding hamlets.

## WEEK ST MARY BONAVENTURES W.I.

Who knew what was on our doorstep? Our speaker this month, Richard Harding, is the founder and Chair of Norton Barton Artisan Food Village which is situated in Launcells. Many of us, to our shame, were not aware of its existence!

Richard and his wife, Fionagh, moved from Kent in 2006. They had originally planned to move to a small farm with a few acres but ended up falling in love with 350 acre farm Norton Barton. They initially started farming – with no previous experience but, needless to say, they received tremendous help and support from their neighbouring farmers. However, it became obvious that they needed another income source and so they started making pates and rillettes and thus Cornish Charcuterie was born in 2011. This now supplies an award-winning range of both soft and hard British Charcuterie. The products have continued to receive critical acclaim since the company began, with awards in both the Taste of the West and Great Taste Awards. Cornish Charcuterie supplies farm shops, delis and restaurants throughout the UK.

Over the years more companies have been added and in 2015 the site was granted Food Enterprise Zone status. Norton Barton is one of only two FEZs in Cornwall and the only artisan food village in the UK. Popti Cornish Bakehouse was launched in February 2015, producing the award-winning range of Popti Savoury Thins. (Popti means “Bakery” in Cornish). They are made in small batches with no artificial ingredients and using as many local ingredients as possible. Ideal for pairing with the Charcuterie, cheeses or as a snack on their own.

The Cornish Distilling Co., again founded by Richard, is Cornwall’s first scratch rum distillery creating British rum from scratch in Bude. Head Distiller, Tom Read, joined the company and the first rum in the range, Kalkar Coffee Rum, was released in September 2017 to great acclaim and won three gold stars at the Great Taste awards. Following on in 2018 came Morvenna spiced British Rum and Morvenna white British rum. The latest is the new Moon Curser Cornish Spiced Rum which, as always, is fermented, distilled and bottled at Norton Barton. Despite being a rum distillery the company has also created some amazing gins in their own right under the name Bude Gin.

Guided tours are normally available. However, roof tiling on some barns needs to be carried out but this cannot be done until the bats have been

- 8c. Planning - to note**  
None.
- 9. Portfolio Reports:**
- **Playground**  
Cllr Shipton reported that the bank has slipped a bit with the heavy rain. The clerk will chase the repairs to the tennis court.
  - **Highways, Footpaths & Greens**  
Lots of potholes have been reported. The ditch has been sorted at Goscott Corner. They have been out twice to Foxhole, but there is still water there, so a third visit is needed. Cllr Slade said an email was received about Downrow. The clerk will respond and explain that as it is being dealt with by Cornwall Council, the parish council won't respond at this stage.
  - **Social media / communications**  
No report.
- 10. Correspondence including (all relevant emails forwarded):**  
The following correspondence was noted: Cornwall Council Town and Parish Council newsletter; CRCC Rural and Coastal newsletter.
- 11. Community Infrastructure Levy and Community Benefit Fund applications**

- 12. Agenda items**
1. Ashbury Grove  
The clerk received an update from Parnalls to say the developer's solicitors are ignoring correspondence and do not seem willing to take matters forward.
  2. Football club lease  
The clerk has received a lease in draft form from the solicitors. This will be looked at by councillors and discussed again at the next meeting. However, the council has been informed of a significant increase in the cost, an increase the council was not made aware of. Councillors resolved for the clerk to write to Parnalls to query the increase, stating that the council has waited in the region of 12 months and the cost is a lot more than the solicitor originally envisaged.
  3. Playing field fence  
Cllr Ward will go back to the supplier to confirm the order. If they are able to include the wire in the price stated, the council is happy to go with that.
  4. Treetops  
No update.
  5. Council vacancies  
There are now two vacancies on the parish council following the resignations of Anna Willoughby and Nick Couch. One vacancy can now be advertised, and the clerk will

Cllr Chopak reported that the budget was passed at the recent full council meeting. There will be a 4.99% increase in council tax, with 2% of this going to adult social care. There has been talk recently of proposed car park charges. None of the car parks proposed were passed, but these will now go to Cabinet. Almost 9,000 people responded to the consultation. Cllr Chopak reported that there were lots of applicants for the Community Highways Improvement Programme. Parishes will have to wait and see if they are successful. The CAP meeting on Monday will focus on young people.
7. **To receive clerk’s report on matters arising**  
The clerk’s report was noted. She confirmed the resignation of Cllr Nick Couch. The April council meeting will be held on Wednesday, April 1 from 7pm to 7.45pm. This will be followed by the Annual Parish Meeting. The council has also received a refund from the Week St Mary Community Shop of £500 from the £1,250 grant given from the parish council in October. This follows a donation from a resident and an increase in the remuneration from running the Post Office. The clerk will write to offer the council’s thanks.
